SUMMARY

Dedicated Web Developer with experience building responsive, efficient websites and leading teams in the Smart India Hackathon. As President of Code Club, GDG Co-Lead, and UNGA80 Science Summit Speaker 2025, I bring strong technical expertise, leadership, and a passion for creating impactful, user-focused web solutions.

WORK EXPERIENCE

Front-End Developer   Jan 2024 - Dec 2024

- Built responsive, user-friendly interfaces with HTML, CSS, and JavaScript, ensuring performance and accessibility. Used JSON for client-server communication and PHP with XAMPP/MySQL for backend integration. Partnered with developers and designers to deliver optimized, end-to-end web solutions.

Speaker – Science Summit 2025 (UNGA80) — SDG Researcher   Sep 2025

– Delivered a talk on at the United Nations General Assembly Science Summit (UNGA80). Shared insights as an SDG-focused researcher, contributing to global discussions on sustainable development. Conducting research aligned with the United Nations Sustainable Development Goals (SDGs).

Community Co-Lead – Google Developer Groups (GDG)   Jan 2024 - May 2025

– Co-lead a developer community, organizing workshops, hackathons, and tech events. Mentored peers in UI/UX, front-end, and emerging technologies, and facilitated knowledge-sharing sessions. Drove collaborations and inclusivity, strengthening community engagement and innovation.
